AGE17631B	AGE17631A	"C" Series	Bombardier
	N/A	MC-21	Irkut
AGE19023	N/A	C919	COMAC

UTAS recommends customers use UTAS approved sources for ground support equipment. Use of ground support equipment from non-approved sources could increase the risk associated with aircraft maintenance and may void UTAS OEM warranty. Tronair is the only UTAS approved source to manufacture and distribute these listed GTTs worldwide. In addition, Tronair will provide comprehensive support services including field support upon request.

Thank you for your interest in UTAS ground support equipment. Please contact Tedd Lima at (860) 654-4889 or via e-mail tedd.lima@utas.utc.com regarding UTAS licensed equipment.

Very truly yours,

UTC Aerospace Systems
