New Product

Tronair has added the [03-5840-0000](#) Falcon 7X stabilizing stand to our product line. Tronair manufactures a full line of stabilizing stands for many business aircraft including Cessna, LearJet and Gulfstream. The stabilizing stan can be equipped with an alarm that blasts a warning when weight on the load cell exceeds 100 pounds.

"The stabilizing stand alarm has saved me thousands of dollars in damage by preventing us from lowering the jacks and not removing the stabilizing stand. This is another great Tronair product!" Service Center General Manager, Battle Creek, MI

Spotlight Product

Tronair manufactured [aircraft tooling](#) to support the Phenom 100 roll out. The tooling was a collaboration between Embraer and Tronair engineers. The project was done quickly and cost effectively. Over 25 different tools were built for the Phenom service network worldwide.

Tronair 1740 Eber Rd. Holland, OH 43528, USA, Phone 800-426-6301 or 419-866-6301
