

## New Product

Did you know Tronair has many products for commercial and regional aircraft?

Tronair offers OEM approved jacks for regional aircraft including the EMB 170/195, CRJ 100/200 CRJ 700/705/900 and Dash 8-100/-200/-300/-400 just to name a few. Now, joining the line up, are the Sukhoi SJ100 main and nose hydraulic tripod jacks. The jacks are equipped with leveling feet, leveling bubble, air pump, threaded ram with hand wheel safety nut, quick rising center extension, easy access filler/breather cap and are CE approved. The [02A7889C0100](#) main jack has a 25 ton capacity and the [02A7890C0100](#) nose jack has a 12 ton capacity.

## Spotlight Product

Tronair now offers a multi stage hydraulic tripod jack with leveling feet for added safety on sloped floors. The [02A7886C0100](#), designed for the CRJ 900 aircraft, has a 10 ton capacity and comes with an air pump, threaded rams with hand wheel safety nut, quick rising center extension, easy access filler/breather cap and is CE approved.

## News

Basic maintenance of ground support equipment is essential. Poorly maintained equipment can have costly or disastrous consequences. A good mechanical maintenance program is a priority to ensure safety of personnel and prevent damage to the aircraft.

Tronair recommends performing preventative maintenance on all jacks, which should include a 90-day routine inspection and a 12-month load test.

Customers sending jacks to Tronair for load testing must obtain an RMA number before shipping any jack.
