

NEWS RELEASE

The Future of GSE is Powered by EBIS

October 1, 2018

Swanton, Ohio

Tronair, Inc. ("Tronair"), a portfolio company of Golden Gate Capital is proud to announce the future of GSE is here and it is Powered by EBIS. This will be on full display at GSE Expo in Las Vegas at booth 616 and NBAA in Orlando at booth 5038. Tronair will be showcasing new products including: the Eagle eJP-12 towbarless vehicle, the Eagle Utility Vehicle (EUV), the 400hz Combo Diesel GPU, and the Cabin Pressure Unit.

eJP-12

- 3 year/3,000 hour warranty
- Dual 16hp AC electric motors with regenerative braking
- Zero degree turning technology for industry leading turn radius

EUV

- 3 year/3,000 hour warranty
- Custom design to address aircraft maintenance safety requirements
- Gas powered Kubota engine with rear wheel drive

GPU

- 3 year warranty on award winning D34 engine
- No diesel particulate filter required
- No regeneration period required

CPU

- Digital display with diagnostics
- Auxiliary air driven 30ft door seal line
- High accuracy flow, pressure, and temperature readings

The Tronair booth will be connected via our latest version of the EBIS enterprise asset management software, from [DatcoMedia](#). Designed for GSE, EBIS is a proven, stable, secure platform that has been in use since 2004. It was originally developed in partnership with Southwest Airlines. Due to the mobile platform, customer invoicing, advanced reporting & data analytics, customers gain measurable ROI not just in the first year, but continuously throughout the lifecycle of EBIS. DatcoMedia offers system implementation, training, customer support and management consulting. We have a history of partnering with our customers to deliver value. When you combine [the best products in the GSE industry](#), with the most advanced software to enhance all aspects of support – you have The Future of GSE. Tronair is your destination for all equipment, service, software and more.

The Future of GSE is here and it is Powered by EBIS.

###

About Tronair:

Tronair is the global leader in the design, manufacture, and sale of GSE for business, commercial and military aircraft. Tronair's broad product line of GSE, comprised of over 1,500 products, is used by over 350 unique aircraft platforms. Tronair emphasizes innovation, reliability, customer focus, and building quality equipment to exceed customers' expectations. As a result, Tronair enjoys an excellent reputation with aircraft OEMs, fixed based operators, maintenance and repair providers, corporate hangars, commercial airlines, defense contractors and military airbases around the world. Tronair is based in Swanton, Ohio and has been in operation since 1971. www.tronair.com

About Eagle Tugs:

Eagle Tugs has been manufacturing the most reliable and functional tow tractors for the aviation, cargo handling and industrial towing markets since 1969. Eagle Tugs are designed and manufactured in the United States and are backed by factory direct service and support. With a robust product line and the strongest warranty in the industry, Eagle Tugs provides the highest level of quality and service to customers globally. In addition to several industrial uses, Eagle Tugs can move fixed-wing and rotorcraft aircraft of most any size across the military, commercial, regional and business aviation and cargo markets. www.eagletugs.com

About Malabar:

From its founding in 1935, Malabar has been a key supplier of ground support and maintenance equipment for commercial and military aircraft. Malabar's primary business has been aircraft jacks, including axle jacks for changing aircraft wheels and tires and tripod jacks for in-hangar service of narrow-body and wide-body aircraft. Today, Malabar sells product in over 60 countries around the world and the product line has expanded to include B787 and A350 coolant service carts; hundreds of different types of fluid dispensers, test stands, weigh equipment, strut service equipment, nitrogen/oxygen equipment, wheel/brake equipment, engine stands as well as the spares, service and replacement parts associated with each product line. Malabar has a worldwide reputation for quality and service, with 24-hour online product support including emergency parts supply. www.malabar.com

About Columbus Jack / Regent:

Columbus Jack is the largest supplier of hydraulic jacks to the U.S. military and a leading supplier of hydraulic jacks to the commercial aerospace market. Columbus Jack consistently complies with tough military standards, which aligns well with their culture of quality and customer service. Columbus Jack was founded in the 1940s as a supplier to the U.S. military. Regent was founded in 1929, and over the course of time, has served most of the world's airlines, airframe and aerospace manufacturing companies. www.columbusjack.com

About DatcoMedia:

DatcoMedia, via its EBIS software products, is the leading SaaS provider for the aviation ground services and equipment market. EBIS products were developed to meet the strict requirements of the FAA and customers for aircraft and ground support equipment repair, scheduling, planning, purchasing, inventory control, utilization optimization and resource allocation. EBIS is the system of record for thousands of users globally, including several of the largest global airlines, ground handlers, jet centers, engine repair shops and FBOs of all sizes. DatcoMedia was founded in 1999 and is based in Chicago, Illinois. www.datcomedia.com

About Golden Gate Capital:

Golden Gate Capital is a San Francisco-based private equity investment firm with over \$15 billion of capital under management. The principals of Golden Gate Capital have a long and successful history of investing across a wide range of industries and transaction types, including going-privates, corporate divestitures, and recapitalizations, as well as debt and public equity investments.
