COMMERCIAL AND REGIONAL AVIATION

Our Commercial and Regional vehicle products are designed to tow or push regional aircraft like the ERJ-145 and narrow-body commercial aircraft like the Boeing 737 and Airbus A320 families of aircraft. Our offering extends to high-speed cargo handling with multiple vehicle options depending on the required weight.

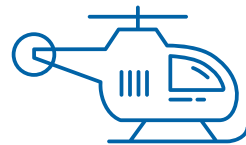

MILITARY

Eagle aircraft tractors are a perfect fit for military operations because they are compact, low profile, and most importantly, All Wheel Drive. The Eagle AWD powertrain offers added traction when operating on unimproved surfaces, which is crucial for military use. All Wheel Drive Eagle tow tractors weigh one-third less than rear wheel drive tow tractors and still generate the same towing capacity, which is key for air transportability.

BUSINESS AND GENERAL AVIATION

Eagle aircraft tractors are known around the world for their versatility and ability to provide safe and controlled traction in all weather conditions. Eagle produces tractors that range from 30,000 lbs of towing capacity up to 170,000 lbs covering the majority of business and general aviation aircraft. With an offering that not only includes towbarless and traditional vehicles, but we also offer electric, diesel, gas and LP power to meet a variety of needs. Many of our towbarless vehicles can be found in OEM manuals and all of our vehicles are used in MRO and FBO facilities worldwide.

ROTORCRAFT

Eagle has a long history of supporting rotorcraft customers, starting with development of the USATS platform for the US Military. With the ability to haul up to 2,000 lbs of cargo on the bed, the USATS has been the preferred vehicle for militaries and first responders around the world. Our TT line of products is also a favorite of rotorcraft customers and can be found in OEM manufacturing facilities.

AVIATION TUGS

Bobtail

Max Tow Capacity: 138,000 lbs
Tractor Weight: 5 to 8.5 tons
Drawbar Pull: 5,000 to 10,000 lbs
Drive: 4x4 or 4x2
Motor: Diesel, Gas

XM Series

Max Tow Capacity: 215,000 lbs
Tractor Weight: 12 to 16 tons
Drawbar Pull: 16,000 lbs Max
Drive: 4WD
Motor: Tier 4 Final Diesel

TTR Series

Max Tow Capacity: 171,000 lbs
Tractor Weight: 4 to 7 tons
Drawbar Pull: 12,000 lbs Max
Drive: 4WD
Motor: Tier 4 Final Diesel

ETT-X Series

Max Tow Capacity: 171,000 lbs
Tractor Weight: 7 to 8.5 tons
Drawbar Pull: 16,800 lbs Max
Drive: 4WD
Motor: Electric

EJP-3/3L

Max Tow Capacity: 30,000 lbs
Tractor Weight: 2,450 lbs / 3,250 lbs
Drawbar Pull: 2685 lbs Max
Drive: Single Motor
Motor: Electric

EJP-10 & EJP-12

Max Tow Capacity: 125,000 lbs
Tractor Weight: 9,000 lbs
Drawbar Pull: 8750 lbs Max
Drive: Dual Motor
Motor: Electric

INDUSTRIAL TUGS

RTT Series

Max Tow Capacity: 50,000 lbs
Tractor Weight: 7,350 lbs
Drawbar Pull: 4,500 lbs Max
Drive: AC Brushless Motor
Motor: Electric

STT Series

Max Tow Capacity: 18,000 lbs
Tractor Weight: 3,100 lbs
Drawbar Pull: 1,3000 lbs Max
Drive: AC Brushless Motor
Motor: Electric

TTR Transit Pro Series

Max Tow Capacity: 171,000 lbs
Tractor Weight: 4 to 7 tons
Drawbar Pull: 12,000 lbs Max
Drive: 4WD
